

Fircroft Tree Services

Dear James and Neil

This is just a short note to thank you for the recently completed tree works at our new development site in Radlett, and the sympathetically approach taken when dealing with the surrounding neighbours.

We hope to have the opportunity to work with yourselves in the future and by way of a foot note the ground maintenance work that you are currently undertaking at one of our site is Hemel Hempstead is keeping the site in good order and well presented, even through the winter months.

I trust you will have another successful year.

Best regards

Andrew Driver.
